Good morning,

I am emailing to let you know about two key dates next week when Bridgwater On The Move will be coming in to support our children in Year 5 with their cycling knowledge and complete 'Bike Safety Checks'.

Please see the information below:

- **Wednesday 12th November** - Bike Maintenance 1-hour sessions offered to all children in Year 5 throughout the day. They will learn how to perform a simple bike safety check, identify the different parts of the bike, learn how to repair a puncture and take part in a bike quiz.
 - If you would like your child to take part in this session, please can they bring their bike (and helmet if they are cycling in) on the day as it is useful for them to learn about their own bike. However, if your child has not got a bike in school for this session, they will still be able to take part.
- **Thursday 13th November** - As part of the Bridgwater On The Move initiative, we will be having a visit from bike mechanics for a four-hour period to complete 'Bike Safety Checks' on all Year 5 bikes that are brought in on Thursday 13th November. They will make adjustments on the bikes to improve the safety of the bikes and where time permits, they may also replace more essential parts that need repairing.
 - If you would like your child's bike to be checked over by a qualified bike mechanic, please complete this form before the day so the mechanics can plan their time accordingly: [Bridgwater On The Move - Bike Safety Checks – Fill in form](#)

For each session above, please can your child bring their bike in at the start of the day and then take it home at the end of the school day. Unfortunately, we do not have the capacity to store bikes overnight.

Many thanks,
Mr Trudgeon
