

## Supporting young people with SEND online

The internet can be a great place, but we need to be aware of the risks involved with being online. For children with SEND, they may encounter further challenges and therefore additional support may be required. There is a lot of tailored information available to parents and carers and the following links are a great starting point:

- [Online safety for children with SEND | NSPCC](#)
- [Supporting children and young with SEND online | Internet Matters](#)
- [Supporting young people with SEND online | Childnet](#)

The above sites cover topics such as helping your child browse safely online, setting appropriate parental controls, activities to help discussions about being online and the steps you can take to help protect your child online.

## Apps for learning and having fun!

White Rose 1-Minute Maths Currently aimed at Key Stage 1 pupils, and focuses on adding, subtracting and multiplying.

Scratch Jr Children (ages 5-7) can learn important coding skills as they program their own interactive stories and games.

Wonderscope Books come to life on your floor and you can play a part in the story! Wonderscope uses augmented reality to transform ordinary spaces into extraordinary stories. 1st book free but then in-app purchases.

InShot - Video Editor Great for creating your own movies! Free but does have in-app purchases available.

As with all apps, check their suitability for your child before they use it. Think about if it is appropriately aged for your child, how does the app use your data and does it have any communication channels within it for example?
